**Jo Ann De Hoyos**  
**County Court-at-Law #11**

I graduated Salutatorian from Burbank High School and accepted a scholarship to Princeton University due to its emphasis on undergraduate studies. After graduation from Princeton University I attended New York University School of Law where I was afforded the opportunity to study abroad in Greece and France as part of the International and Comparative Law Program. I also served as Staff Editor of The Review of Law and Social Change.

After graduating from New York University, I returned home to Texas to begin my legal career.

In an effort to serve my community, I ran and was elected as a director to the Edwards Underground Water District. As director, my charge was to protect and preserve our precious water supply, the Edwards Aquifer. My peers elected me as the first female chair in the Edwards' 40-year history.

Two years into my practice, I was appointed to serve as Associate Judge of the 289th Judicial District Juvenile Court. I served in this position for 10 years. As Associate Judge I made decisions regarding juvenile criminal defendants and also decisions regarding abused and neglected children.

I was appointed to my current position in 1999 and elected in 2000, 2002 and 2006. In my current position as Judge County Court-At-Law #11, I preside over a criminal misdemeanor docket. I would like to continue serving my community in this role and humbly ask for your vote in the general election, November 2, 2010.

**Richard Garcia**  
**County Court-at-Law #12**

As a trial attorney handling both civil and criminal cases for over 14 years and with my extensive legal representation of children in the Bexar County Children's Court, I possess the practical experience as well as the legal knowledge to properly and efficiently run County Court at Law 12. County Court at Law 12 oversees criminal misdemeanor and civil cases as well as the mental health court. With a current enormous backlog of very old cases that await trial, my first priority is to expedite the disposition of these cases. My second priority is to implement new technologies available to the court such as g.p.s. and scam monitors to avoid incarcerating low-level criminals which would alleviate some of the jail's over-population and at the same time save Bexar County citizens money. I also plan to stream-line the court's efficiency by sharing the Mental Health Court duties with other county courts.

Additionally, before I became an attorney, I received both a bachelor's and master's degree in architecture and urban design. I designed and master-planned theme parks for Walt Disney Imagineering. I am also a licensed U.S. customs broker. Also, my travels to over seventy countries and five continents continue to give me insight into how others live and influence my perception of what is just and fair.

**Ernest Acevedo**  
**County Court-at-Law #14**

Ernest Acevedo Jr. was born and raised in San Antonio, TX. His parents, Ernest Sr. and Olivia Acevedo, raised him along with his five sisters and 2 brothers. He began working at a young age with his father and five uncles who owned and operated J. Acevedo and Sons Produce Company at the San Antonio Terminal Market. Although his parents stressed the value of hard work, they also encouraged education. He graduated from Jefferson High School in 1969 and went on to St. Mary's University where he received his Bachelor's Degree in Business. Following his undergraduate studies, he graduated from the St. Mary's University School of Law in 1975.

He opened his private law practice in 1976 and began handling civil and criminal cases. He was one of the founding members of the Mexican American Bar Association and was president of the Bexar County Young Democrats. He also served on the San Antonio Bar District 10 grievance committee for two terms.

In September of 2009, after 33 years of running a successful and enjoyable practice, he was appointed unanimously by the Bexar County Commissioners Court to preside over the newly created County Court at Law #14. His court handles both criminal and civil cases and he is presently assigned to the Jail and Impact Courts.

As the incumbent judge, Ernest is respectful, fair, and courteous to all parties that appear before him. He is patient and polite, and his wealth of experience practicing civil and criminal law in San Antonio have made him the best candidate for the position.

Ernest wants to continue his time on the bench because he believes he can make a difference in the lives of the parties that appear before him. "No one cares for many of the defendants I see. Many are lost, so I do my best to inspire them and guide them in the right direction," he said in a recent interview.

In his first year on the bench, he implemented changes in the Jail Court that resulted in a more efficient processing of all cases being disposed. One of his main objectives was to have fewer low-risk defendants in the system in order to increase the available resources to supervise defendants that are most likely to endanger public safety. He has already helped reduce the jail population, resulting in substantial financial savings to Bexar County. He intends to continue expediting all pending cases in the system and wants to improve methods of probation. He plans to address individuals who pass through his court to better understand what is working and what is not. He wants to offer incentives for defendants to complete probation so they're set up for success, not failure. In addition, he plans to practice "smart justice" by increasing involvement and cooperation amongst those working in the justice system in order to improve efficiency.

Ernest has been married to his high school sweetheart, Diana, for 41 years. They have three sons, Ernest III, Steve, and Michael, a daughter-in-law, Connie, and four grandchildren, Ernest IV, Victoria, Andres and Alejandro.

**Barbara Scharf-Zeldes**  
**Probate Court 2**

Advocate, attorney, community and religious leader, and mother are all words used to describe Barbara Scharf-Zeldes, or "Barbie" as her friends and supporters call her.

Barbie's life has been dedicated to public service and that is why so many encouraged her to run for Probate Court #2. It also explains why she has such a strong grassroots network of supporters. For the last 17 years, she has served as in-house counsel for San Antonio police officers and firefighters, representing police officers, firefighters, and their families in legal matters surrounding probate and family law. She has helped children, families and senior citizens, bringing stability to lives unraveled by crisis and tragedy.

In addition, she was trained at the A.A. White Dispute Resolution Center in mediation, and certified as a police instructor by the Alamo Area Council of Governments. Barbie graduated from Brandeis University in Waltham, Massachusetts with a Bachelor of Arts degree in American and Legal Studies and received her law degree from St. Mary's University School of Law. **Margaret Montemayor**  
**District Clerk**

I am the incumbent District Clerk of Bexar County and is running for my third term to serve as your District Clerk.

I was born and raised in San Antonio and I started my career with the District Clerk's Office in 1966 and was a Deputy District Clerk for 30 years before retiring to run for office. I was elected District Clerk on November 5, 2002 and I am the first elected Hispanic female District Clerk in Bexar County. My husband is Frank B. Montemayor whom I've been married to for 42 years. Frank and I have two children, daughter Gina and son Anthony (wife - Elly). We are also blessed with two grandchildren - Mateo and Anthony.

With over 30 years of proven experience in the District Clerk's Office, I have demonstrated the leadership necessary to serve the citizens of Bexar County. Under my tenure, the District Clerk's Office has been transformed to provide valuable information to assist the citizens of Bexar County in an efficient and user-friendly manner. Through the implementation of e-filing, a centralized collections department, a records department, and a litigant search on-line, the District Clerk's Office is able to offer valuable resources to help the justice system run more effectively.

On June 3, 2003 the District Clerk's Office

accepted its first e-filing form a local attorney opening the door for an e-filing system that has flourished since that day.

The District Clerk's Office instituted a Collections Department to collect outstanding court costs, which has brought in \$858,040.72 additional in revenue to the county. During my administration my office began enforcing the collection of administrative fees allowable for handling registry funds and brought in \$410,533.34. Additionally, my office pursued Affidavits of Inability and has collected \$65,316.22.

Since 1986, the City of San Antonio and Bexar County have shared an integrated booking process and 24 hour magistrate services. In view of a significant increase in the population at the Bexar County Adult Detention Center, Bexar County assumed responsibility of the Central Magistration Office Department (CMAG) on November 7, 2007. To ensure the efficient operation of CMAG, I was named clerk of records for the magistration function.

In January 2008, my office implemented a digital imaging system that has made all civil documents available faster and available to the court at any time. With this new procedure no paper files are created which is a savings to the county and requires less storage. I have and will continue to bring innovative technology to the District Clerk's Office that will make our filing system and records keeping more efficient and user-friendly to ensure that not only attorneys but also the general public are served as well.

We at the District Clerk's Office strive to provide outstanding customer service to the citizens of Bexar County. I want to continue my service to Bexar County and I hope I have earned your respect these last almost eight years. I respectfully ask for your VOTE on November 2, 2010. And always remember...Experience Counts!

POLITICAL ADV. PAID BY TINA TORRES FOR 288TH DIST. COURT JUDGE, PETE A. TORRES, TREASURER

**Roberto "Robbie" Vazquez**  
**Justice of the Peace Precinct 2, Place 2**

I respectfully ask for your vote for Bexar County Justice of the Peace, Precinct 2, Place 2.

Having been married 23 years with three children and having served as a Municipal Court Judge, Magistrate, attorney, community/neighborhood advocate, and legislative staffer gives me a unique perspective to be an effective Bexar County Justice of the Peace.

Bexar County taxpayers deserve to have their tax dollars spent wisely, and I intend to attack the main issues (court backlog, courtroom efficiencies, jail population issues, technological innovation) in vigorous fashion with creative problem solving rather than the status quo. The Court must provide a forum where citizens receive fair and impartial justice, not "factory justice". This process demands timely administration, delivered by a judge with an even judicial temperament. I will work to expose root causes of truancy and ensure truants receive meaningful punishments that keep them moving forward in school and reduce recidivism. I bring a strong work ethic and have proven success in reducing backlogs and creating efficiencies while serving as a Municipal Court Judge for the City of San Antonio.

I want to do the same for Bexar County.

When the City of San Antonio was experiencing a significant backlog in daily jury settings and trials, I devised and presided over an aggressive court docket to dispose of the backlog. My court reduced the average number of daily jury settings by almost 50% while also ensuring that jury trials were heard promptly. This successfully reduced the entire Jury Docket backlog from 6 months to 45 days.

I again put into practice these efficiencies when Municipal Court had a backlog in the Code Compliance/Environmental Court. This court dealt with many volatile and high profile cases and was understaffed while I presided over it. Nonetheless, I reduced the backlog and had more dispositions than previously experienced in this court.

Additionally, I implemented a pre-trial Call docket in order to identify cases that necessitated a jury trial. With a Call docket in place, the court produced savings by moving cases to speedier resolutions as well as avoiding the costs associated with paying police witnesses.

During my tenure in Municipal Court and as Jail Magistrate, I presided over all dockets including Code Compliance, Assault, Juvenile, Traffic and TDL Suspension.

The above mentioned specialty dockets entailed significantly more effort to dispose of than traffic dockets; however, moving the specialty dockets in an efficient manner created additional time to assist with the traffic dockets.

I look forward to implementing these tax saving strategies as Justice of the Peace.

**William Peche**  
**Justice of the Peace Precinct 3**

I am running for Bexar County Justice of the Peace, Precinct 3. I am a San Antonio native, born, raised, and educated locally. My family roots in San Antonio date to 1811, and the family name is listed among Texas First Families. My beautiful wife Margaret and I have two sons, Jack and Vincent, age 4 and 2. Some day they too will take special pride in the deep roots of their family in Texas history. I am a proud graduate of Central Catholic High School, class of 1987. I earned a Bachelor's degree from UTSA, and some years later earned a Master's degree from American University.

My career is in the public sector, beginning with service as an adult probation officer and continuing into public affairs. I served as a legislative director in Congress, and take special pride in legislation I developed that would increase penalties on sex offenders who break the conditions of their release.

I will make Precinct 3 a full time court. As a former probation officer, I know that real justice requires hard work, determination, and vigilance. The JP, as the court is commonly known, is a true "People's Court" that is supposed to be answerable to the people. As such, I commit to ensuring that each case in the court is treated with fairness and respect, which requires transforming the court into a full time, operation that works for taxpayers. I will make the court answerable to the people, and end the practice of JPs occupying a perch above and out of sight of the very taxpayers who pay for it. Making the court full time is my first priority, and I will use the resources of a full time court to help reduce truancy in public schools.

As a truancy court, JPs are responsible for helping to reduce truancy and its negative consequences ranging from ugly graffiti to serious juvenile crime. Truants waste hard earned taxpayer dollars intended to fund classrooms, textbooks, and school programs. I commit to being active in the community and schools to help develop methods to get these youths back in school and on their way to productive, contributing citizenship. I will help infuse an ethic of work and personal responsibility in truants through innovative sanctions and community service.

I appreciate your vote for William Peché, for Justice of the Peace, Precinct 3.
